

## Support Hydra

If you wish Hydra to continue it's development, you can buy me a cup of coffee (to keep me awake at 3AM while debugging the 10th thousand line of code that day ;) through my Moneybookers account. You simply register with them and send the desired sum to [donations@hydrabrowser.com](mailto:donations@hydrabrowser.com).

You can support Hydra just by downloading and using it. You can read more about Hydra's sponsorship program [here](#). BTW, check the moneybookers services even if you don't have any intention of buying that coffee, they're a great service, although sometimes a bit paranoid about the identities, but hey, it's a desirable quality for someone messing with your money, right
